

FastHRM Platform Guide

2026-08-19 | <https://hrm.fastsmc.com>

FastHRM is an open-source **HR system** built with — a server-side, HTMX-driven port of the core of , scoped to three pillars: **people** (employee directory + departments), **time** (leave + attendance), and **pay** (payslips). Python-first, no JavaScript framework, with an AI assistant grounded in the live (synth

A clearer home for every people process.
